the source of all geographic information

6. ADMINISTRATION

NZ MasterMap Administration includes all types of zoning from territorial authority boundaries to school and census zones. A useful tool when you need all the administrative details about a property and its surroundings.

- The NZ MasterMap Administration Zones layer pulls together data on a number of political and administrative boundaries within New Zealand.
- Boundaries sourced from Statistics New Zealand – Territorial Authority boundaries, Regional Council boundaries, Electoral boundaries and meshblocks (levels 1 and 2) – are available in spatial format.
- Other authoritative data sources including localities, postcodes and school zones are available.
- This layer is updated as regularly as the boundaries are changed in order to provide a current overview of administrative zones within New Zealand.
